Tuesday 13 September 2022

forecast reliability: ★★☆☆

At first mainly sunny or partly cloudy sky in the morning due to thin and high cloud banks passing at times; these clouds will become more and more thick and wide up to cloudy sky from the evening onwards, with a chance of some rain droplets overnight. In the afternoon Cumuli clouds will develop close to the highest summits, with low chance of few rain droplets.

Winds: light from NW in the early morning, backing SW and strengthening, up to strong in the evening; breezes even moderate in the valleys, and light Westerlies in the Western areas from the afternoon.

Temperatures: further rising.

Freezing level: 3700 » 4400 m; T 1500: 9 » 23 °C; T 3000: 6 » 11 °C (indicative values in the free atmosphere).

Atmospheric pressure: stable.

Temperatures: <i>mountain (min max)</i>	▲	▲	Communications: no communications.
Temperatures: <i>valleys (min max)</i>	▲	▲
